SOFT SKILL

Critical
thinking

Creativity

Emotional
intelligence

EXPERTISE

- AI Product conception : Chatbot
- AI deployment : LLM, NLP, Speech-to-text
- R&D : Computer Vision
- End-to-end AI product management

TOOL/ALGO/Framework

- Rasa Open Source (NLP)
- Sentence Transformers Multilingual-Model
- Azure Bot Service, Meta API
- AWS, OVH cloud
- Github, Kubernetes, Docker
- Adobe xd, Figma, Dribbble
- Jira, Trello, Xmind, Miro, Confluence
- Final Cut Pro X, Canva
- Gsuite, iWork, Microsoft Office

INTEREST

- AI Ethics
- Innovation, GreenTech, SocialTech
- Cognitive neuroscience
- Traveling, food, self-improvement

PROFESSIONAL SUMMARY

Leveraging my 8 years as AI Product Owner or CPO leading the development of AI projects (Conversational AI/LLM, speech-to-text, computer vision), I'm a passionate of AI seeking a new challenge at the forefront of technology. I implemented agile methodologies like Scrum and Kanban to ensure efficient product development. My expertise lies in user-centric approaches like design thinking, and I'm well-versed in backlog prioritization techniques like story mapping, MoSCoW, and RICE. I'm eager to contribute my skills and passion to a company creating tomorrow's technology.

WORK EXPERIENCE

AI Product Owner - transversal - digital direction

France Télévisions

2024-2025

- **Transversal AI Project** : End-to-end AI process/workflow, deployment, monitoring and continuous amelioration
 - **Speech-to-text** to help journalists with transcription (Franceinfo, France 3 régions, 1ère Outre-mer)
 - **LLM's GenAI** to help journalists to generate articles based on transcript (Claude 3.7, ChatGPT 4o-mini, Gemini 2.5 etc.)
 - **AI Image, OCR** to help designer to create and declinate images
 - **Prompt engineering** to help product management, operations to deployed contextualized prompt
 - **Responsible AI** : Work on ethic label to show AI Generation content, human-in-the-loop, LLM-as-judge tools to mitigate hallucinations
 - **AI Prospective strategy** : AI interviews and AI watch to classify insights about AI impacts and risks based on AI needs

CPO - Chief Product Officer

tinycoaching

2020 - 2023 / 2020-2018

- **Conversational AI - chatbot** :
 - End-to-end product development, test and deployment of an conversational AI for learning training, front and back office (RASA Open Source and Sentences Transformers Multilingual Model)
